About Us

We are **SAGENEX**, a global wealth ecosystem that fuses blockchain innovation, real-world assets, and community power to create unstoppable growth. Our journey started with a strategic investment in Jobsforce.ai, a Silicon Valley-recognized AI venture. That move gave us access to world-class tech, talent insights, and predictive market strategies — and positioned us as serious players on the global stage.

From those roots, we built the SGX PMS model: a regulated, high-yield portfolio management system that combines crypto-style rewards with institutional-grade security.

Why leaders love us:

- **Credibility** – Proven in Silicon Valley, backed by SGX standards.
- **Innovation** – AI-driven strategies powering smarter profits.
- **Global Expansion** – A platform designed for massive outreach and scale.
- **Leadership Advantage** – The first movers here are tomorrow's global wealth icons.

Our Promise: Whether you're a visionary leader or a silent investor, our ecosystem gives you the freedom, recognition, and lifestyle rewards you deserve.

Partnerships

Our Growth Together

At Sagenex, we are more than a team — we are a family. Every campaign we create, every message we share, and every milestone we achieve is built on trust, unity, and the belief that together we are unstoppable. Just like a family, we lift each other up when times are tough, celebrate each other's wins, and walk hand-in-hand toward a shared future.

Our strength lies not in one person's effort, but in the togetherness of many hearts beating with the same vision. When we market Sagenex, we aren't just promoting a brand — we are spreading the story of our family to the world. Let's continue to stand strong, united, and committed, because together, we can turn dreams into reality and make history.

- 👉 **Assumption:** Every person invests with a \$1,000 package.
- 👉 **Bonus Structure:** L1=10%, L2=6%, L3=5%, L4=4%, L5=3%, L6=2%.

◆ Step-by-Step Example

You (Top Node) bring 6 directs (Level 1). Each of them brings 6, creating 36 members on your Level 2. This duplication continues down to Level 6, creating exponential growth.

Level	Members	Package Value (\$)	% You Earn	Your Bonus (\$)
L1	6	\$6,000	10% (R1=8%, R2=6%, R3=5%, R4=4%, R5=3%, >R6=2%)	\$600
L2	36	\$36,000	6%	\$2,160
L3	216	\$216,000	5%	\$10,800
L4	1,296	\$1,296,000	4%	\$51,840
L5	7,776	\$7,776,000	3%	\$233,280
L6	46,656	\$46,656,000	2%	\$933,120
TOTAL	55,986	\$55,986,000	—	\$1,231,800

◆ Key Learning for Team

Massive Potential: If each person brings just 6 people, your downline can grow to tens of thousands, with potential earnings over \$1.23M from this bonus alone.

Realistic Duplication: In reality, 10-20% duplication is a great achievement. Even at that rate, the income potential remains massive and life-changing.

✓ Simple Explanation

"Bring 6, help them bring 6. By Level 6, you could be earning over \$1 million in bonuses. Even if just 20% duplication happens, you still make serious income. And because payouts are capped, the company stays profitable and stable."

Unilevel Bonus & Overrides

SAGENEX Commission Structure

Normal Unilevel Payouts

Normal Members

All active members earn commissions up to **6 levels deep**. This forms the foundation of team-building rewards.

Leadership Overrides

Leadership Overrides

Beyond 6 levels, only **Silver Directors & above** earn overrides down to Level 9.

⚡ Note: These come from the 40% shared pool to keep the company safe & profitable.

Rules: Must maintain PV+GV targets + leg rule (max 40% from one leg). Re-invest Bonus reduces per cycle: R1=8%, R2=6%, R3=5%, R4=4%, R5=3%, R6+=2%. Investors capped at 2.5x; Leaders capped at 4x. Pool bonuses distributed monthly; company always retains profit via 40% pool cap.

Performance Bonus (5%-16%)

Unlocks at Builder (L2)

Based on monthly PV+GV (after 40% leg cap). 1 PV = \$10. This is an extra percentage bonus on your total team volume.

Rank	Monthly PV+GV	% Bonus
Builder (L2)	\$10,000	5%
Leader (L3)	\$25,000	8%
Manager (L4)	\$50,000	12%
Director (L5)	\$100,000	14%
Crown (L6)	\$250,000	16%

This is one of the core earnings in SAGENEX — it rewards you for building both your personal volume (PV) and group/team volume (GV).

How it Works

PV (Personal Volume): Points you generate from your own package + reinvestments.

GV (Group Volume): Points generated by your team (directs + indirects).

Every \$10 = 1 PV.

At the end of every month, your total PV + GV is calculated.

The system applies a 40% leg cap (to avoid one big leg carrying you).

Example: If you have 3 legs, max contribution per leg is 40% of required PV. This ensures balanced team growth.

Based on your rank stage, you earn between 5% and 16% of that volume.

Step-by-Step Example

Imagine you are at Manager (12%) with 2,400+ PV:

Your personal package: \$1,000 = 100 PV

Leg A (downline team): \$20,000 = 2,000 PV

Leg B: \$8,000 = 800 PV

Leg C: \$5,000 = 500 PV

Total raw volume = 100 + 2,000 + 800 + 500 = 3,400 PV

👉 But system applies 40% leg cap:

Leg A max counted = 40% of 3,400 = 1,360 PV (not 2,000)

Leg B = 800 PV (ok, within cap)

Leg C = 500 PV

Your PV = 100

✓ Final qualified volume = 1,360 + 800 + 500 + 100 = 2,760 PV

Now apply your % (Manager = 12%):

$\$27,600 \times 12\% = \$3,312$ bonus for the month

Stage	Required PV Volume	Bonus %	Example Earnings
Builder (L2)	1–599 PV	5%	If team generates \$5,000 → \$250
Leader (L3)	600–2,399 PV	8%	If team generates \$10,000 → \$800
Manager (L4)	2,400–5,499 PV	12%	If team generates \$30,000 → \$3,600
Director (L5)	5,500+ PV	14%	If team generates \$60,000 → \$9,600
