7. Performance-linked arrangement - special disclosure

IMPORTANT CUSTOMER DISCLOSURE

This section records the principal commercial risks and limitations applicable to any performance-linked arrangement. Customer signature confirms acknowledgement of the disclosed terms; it does not replace the Company's legal, regulatory or internal approval requirements.

Commercial structure and maximum distribution ceiling: the Company may deploy eligible business capital in gold trading and/or lawful import-export activity. Subject to actual realised performance, the executed definitive contract, reserves, losses, expenses, taxes and applicable law, the Company may declare a variable distribution. Aggregate payments credited to the customer - including any amount treated as return of principal/value and all performance-linked distributions - shall not exceed 2.5 times the accepted base amount. The 2.5x figure is only a maximum lifetime ceiling. It is not a target, maturity value, debt, guaranteed redemption amount, repayment obligation or assurance that any distribution, principal return or 2.5x outcome will occur. Payments may be lower or zero, and the customer may lose some or all economic value committed.

Customer must initial every statement

Initials	Acknowledgement
_____	No fixed monthly rate, minimum profit, assured principal, maturity amount or timetable has been promised to me.
_____	"Monthly" describes only a possible review/declaration frequency; it does not mean a payment is due each month.
_____	Bonuses, rewards, referral benefits and distributions may be zero and may be withheld where no lawful, realised and distributable performance exists.
_____	I can lose some or all economic value committed, subject to the legal character and terms of the arrangement.
_____	Past illustrations, dashboards, testimonials and earlier payments are not forecasts or guarantees.
_____	The 2.5x ceiling includes principal/value returned plus all distributions; it does not create a right to receive 2.5x.
_____	No payment may depend primarily on recruitment, enrolment fees or money from later customers. I will report such conduct.
_____	The Company may not alter accrued contractual rights merely by calling a payment discretionary; the signed definitive agreement and law govern.
