About Us

We are **SAGENEX**, a global wealth ecosystem that fuses blockchain innovation, real-world assets, and community power to create unstoppable growth. Our journey started with a strategic investment in Jobsforce.ai, a Silicon Valley–recognized AI venture. That move gave us access to world-class tech, talent insights, and predictive market strategies — and positioned us as serious players on the global stage. From those roots, we built the SGX PMS model: a regulated, high-yield portfolio management system that combines crypto-style rewards with institutional-grade security.

Why leaders love us:

- **Credibility** – Proven in Silicon Valley, backed by SGX standards.
- **Innovation** – AI-driven strategies powering smarter profits.
- **Global Expansion** – A platform designed for massive outreach and scale.
- **Leadership Advantage** – The first movers here are tomorrow's global wealth icons.

Our Promise: Whether you're a visionary leader or a silent investor, our ecosystem gives you the freedom, recognition, and lifestyle rewards you deserve.

WE ARE GLOBAL LEADER'S

Our Growth Together

At Sagenex, we are more than a team — we are a family. Every campaign we create, every message we share, and every milestone we achieve is built on trust, unity, and the belief that together we are unstoppable. Just like a family, we lift each other up when times are tough, celebrate each other's wins, and walk hand-in-hand toward a shared future. Our strength lies not in one person's effort, but in the togetherness of many hearts beating with the same vision. When we market Sagenex, we aren't just promoting a brand — we are spreading the story of our family to the world. Let's continue to stand strong, united, and committed, because together, we can turn dreams into reality and make history.

Next-Gen KYC & Compliance Process – Sagenex

Sagenex Passport implements a cutting-edge Know Your Customer (KYC) and Anti-Money Laundering (AML) framework, ensuring security, compliance, and global accessibility across our ecosystem.

Identity Verification

Submit government-issued identification documents for AI-powered document authentication, biometric checks, and fraud detection.

Security Assessment

Multi-layer security screening including geolocation, address confirmation, and cross-checks with global sanction lists.

Unique SGX ID Creation

Upon successful onboarding, each investor receives a Universal SGX ID (USGX-ID), serving as a digital passport across all Sagenex products and services.

Ecosystem Access

Your USGX-ID enables seamless login and interaction with all Sagenex investment platforms — from PMS (Portfolio Management Services) to Crypto Assets & Trading Bots — using a single, secure identity.

Driving Trust Through Transparent KYC

Sagenex's regulatory-first approach ensures:

- ✓ Investor authenticity through advanced verification.
- ✓ Protection of both active leaders and passive investors.
- ✓ Global compliance across finance & technology jurisdictions.
- ✓ Long-term transparency that builds credibility & confidence in the Sagenex ecosystem.

SAGENEX Level Income Unlock Framework

Level income in SAGENEX is unlocked through structured leadership, active teams, and responsible growth.

12-LEG LEADERSHIP SYSTEM

CORE ELIGIBILITY PRINCIPLE

To unlock and sustain deeper level income, a leader must build a robust and verifiable organization:

- ✓ Independent active legs
- ✓ Real team participation
- ✓ Balanced business structure

 Level income follows leadership, not shortcuts.

LEADERSHIP BENCHMARK

12 Legs

The gold standard for full ecosystem participation and maximum depth unlocking.

ACTIVE TEAM REQUIREMENT (KEY RULE)

- 1 144 Active Members:** A minimum of 144 active team members is required for deep-level unlocking.
- 2 Depth-Independent:** Members can be under any depth or level across your 12-leg structure.
- 3 Account Purity:** Only package-active accounts are counted; expired or inactive accounts are excluded.

Why 144?

- Encourages **genuine duplication** throughout the network.
- Ensures **real depth** across the organization rather than top-heavy growth.
- Prevents "empty legs" or inactive placeholder accounts from gaming the system.

 VISUAL ARCHITECTURE

12 x 12 Structure

144

TOTAL ACTIVE TEAM MEMBERS

Active team members may exist at any level of depth across the organization.

CRITICAL CONDITIONS

- Team must remain continuously active
- Eligibility is reviewed periodically
- Level income is paused if requirements drop
- Restored instantly upon re-qualification
- No backdated payouts for inactive periods
- One-leg domination is not allowed

Ecosystem Protection

Prevents premature high payouts and maintains long-term financial stability.

Real Duplication

Rewards leaders who build genuine depth rather than simple direct signups.

Long-Term Trust

Creates institutional-grade confidence for professional leaders and investors.

“To unlock higher levels, you must build real teams — not just direct signups.”

LEVEL INCOME ELIGIBILITY IS PERFORMANCE-BASED AND NOT GUARANTEED.

ACTIVE TEAM REFERS ONLY TO PACKAGE-ACTIVE MEMBERS AT THE TIME OF CALCULATION.

ALL PAYOUTS ARE SUBJECT TO SAGENEX RULES, CAPE, AND PERIODIC GOVERNANCE REVIEWS.

Payout Eligibility Structure

Unlock higher earning potential through performance. All members begin with the Default 2.5X rule and can scale up to 4X by building organizational depth.

Why Leaders & Investors Trust SAGENEX

At Sagenex, capital safety is achieved not by promises—but by structure, diversification, and disciplined execution. We move beyond speculation into institutional-grade deployment.

Global Deployment Strategy

Sagenex collaborates with independent global financial partners to evaluate and manage capital across non-correlated sectors. This structural independence ensures:

- Elimination of Single Points of Failure
- Reduced Exposure to Volatility
- Long-term Ecosystem Sustainability

"Your capital is not placed in one basket, one market, or one idea. It is distributed across real businesses, assets, and systems."

CAPITAL DEPLOYMENT DEPENDS ON PERFORMANCE, MARKET, AND BUSINESS CONDITIONS.

SG Stocks SGBN

Ideas, Capital & Community — Growing Together

"SG Stocks enables ideas born inside SGBN to grow with the support of the community — creating opportunities not just for businesses, but for families and future generations."

SECTION 01

Where Ideas Come From

- **Business expansion plans**
Scaling existing small ventures
- **Startup ideas from founders**
Fresh concepts from the community
- **Service & platform concepts**
Freelancer-led digital solutions
- **Community-driven solutions**
Solving collective ecosystem needs

 SGBN IS THE BIRTHPLACE OF REAL, GROUND-LEVEL IDEAS.

SECTION 02

The Growth Bridge

SGBN Ideas → SG STOCKS Structure → COMMUNITY Participation → MARKET Scale

SG Stocks acts as a structured growth bridge, enabling ideas to gain visibility and scale responsibly without founders losing their core identity or ownership.

Community Participation Model

01

Review & Structuring

Ideas evaluated for feasibility, scalability, and ecosystem value.

02

Participation

Interested members support ideas through SG Stocks mechanisms.

03

Execution & Scaling

Capital, talent, and network support help the ideas grow.

04

Value Circulation

Growth benefits circulate back into the community ecosystem.

For Founders

- Access to ecosystem-backed growth support
- Faster expansion into new markets
- Hiring pipeline from Sagenex community
- Brand credibility via SG Stocks association
- Reduced dependence on external venture capital

For Freelancers

- Convert skills into scalable business ideas
- Access funding for service platforms
- Collaborate with established businesses
- Move from freelancer → team → founder
- Gain global exposure through the ecosystem

SECTION 07

Benefits for Future Generations

We are building opportunities that go beyond immediate income, creating pathways for children and families.

Skill & Internships

Children gain access to projects and exposure within ecosystem businesses.

Learning & Mentorship

Early exposure to entrepreneurship, finance, and leadership.

Career Pathways

Priority consideration for roles created by supported businesses.

Entrepreneurial Mindset

Learning how ideas grow into businesses — practically, not theoretically.

 THE ECOSYSTEM GROWS PEOPLE, NOT JUST PORTFOLIOS.

SECTION 09

Safety & Transparency

- No guaranteed or fixed returns
- Participation is performance-based
- Capital deployment is diversified
- Governance & periodic reviews apply
- Compliance with rules is mandatory

SIMPLE VISION

**"SGBN creates ideas.
SG Stocks helps them grow.
Families and futures grow with them."**

SG STOCKS FACILITATES ECOSYSTEM-BASED GROWTH PARTICIPATION AND DOES NOT GUARANTEE RETURNS.

Why the New **SAGENEX Plan** Works Better for Me as a Leader

"As a leader, I don't want stress, confusion, or constant pressure. I want clarity, structure, and a system I can confidently explain."

COGNITIVE EASE

Less Confusion, More Clarity

What changed for me wasn't just the numbers—it was the mental load. The rules are now objective, not subjective.

- Clear eligibility rules
- Clear level unlock conditions
- Clear monthly expectations
- Transparent income sources

LEADER'S VISION 2025

A Message to Our Leaders, Investors & Community

Dear Leaders and Partners,

Trust is not built by promises. It is built by structure, discipline, and time.

At Sagenex, we have taken a very conscious decision from day one — to build something that lasts, even if it means growing slower, asking harder questions, and putting stronger rules in place.

Your confidence in Sagenex is not taken lightly. Every policy you see — payout caps, leg rules, leadership qualifications, business diversification, governance reviews — exists for one single purpose: **to protect the ecosystem and the people inside it.**

We do not operate on a single idea, a single market, or a single income stream. Instead, Sagenex is structured as a diversified global ecosystem, working with independent financial and business analysis partners and operating across multiple sectors and geographies.

- Forex Trading (Risk-Managed)
- Gold Mining & Agriculture Yields
- SG5 Trader Technology
- SG Stocks (Visibility Layer)
- International Real Estate
- SG Chain Infrastructure
- SG Business Network (SGBN)
- SG Travels Club (Launching 2026)

This diversification is intentional. It ensures that no single sector controls outcomes and no single downturn can destabilize the system. *Equally important is what we do not do:*

- ✗ NO FIXED OR GUARANTEED RETURNS
- ✗ NO UNLIMITED PAYOUTS
- ✗ NO SACRIFICE OF GOVERNANCE FOR SPEED

Earnings are capped. Growth is structured. Leadership is earned. This is how real institutions survive cycles.

To our leaders: Your role is not just to earn — it is to protect the culture, discipline, and integrity of this ecosystem.

To our investors: Your capital is not treated as fuel to burn, but as responsibility to manage.

To our community: Sagenex is not built for one year. It is built for many years, many leaders, and many families.

Thank you for believing in a vision that chooses sustainability over shortcuts.

With responsibility and commitment,

Monish Adari

INVESTOR & LEADER FAQ

TRUST, SAFETY & SUSTAINABILITY

CLARITY BUILDS CONFIDENCE. TRANSPARENCY BUILDS TRUST.

Q: What is Sagenex?

Sagenex is a **diversified global ecosystem** combining business networking, technology, capital deployment, and community-driven growth across multiple sectors.

Q: Is my money guaranteed or fixed?

No. Sagenex does not offer fixed or guaranteed returns. All earnings are **performance-based** and dependent on participation, leadership, and business conditions.

Q: How is risk controlled?

- Earnings caps (2.5X / 3X / 4X)
- 12-leg distributed structure
- Multi-sector and multi-geography diversification
- Governance & compliance reviews

Q: Where is capital deployed?

Across independent sectors including: **Forex, real estate, gold mining, agriculture, blockchain infrastructure, trading systems, business networks**, and growth platforms.

Q: What role does SG Stocks play?

SG Stocks act as a **business growth and credibility layer**, enabling visibility, expansion, capital circulation, and hiring within the ecosystem.

Q: What happens in slow market conditions?

The system is designed to **slow down safely**, not collapse. Caps, carryforward rules, and diversification protect stability.

Q: How does SGBN add safety?

SGBN creates real-world value through:

- Business referrals
- Hiring (including **30% community hiring rule**)
- Freelancer engagement
- Capital circulation

Q: Can rules change?

Yes — but only to **protect sustainability**. All changes are communicated transparently to ensure long-term ecosystem health.

Q: Why should I trust Sagenex long-term?

Because it is **Capped, Structured, Diversified, Governed, and Transparent**.

Short-term systems fail. **Structured systems endure.**

"Sagenex is not built for speed. It is built for survival, stability, and scale."
